

Monthly Policy Totals by Submitted Date

DISCLAIMER: The numbers listed below are based on “Submitted Date”. This is the date that the broker first submitted this information to the California SLA. Upon submission, the filing broker only submits the total premium and total transaction counts for the submission on the submission date. This information is only available as monthly totals and can not be deconstructed by Insurer, Coverage, NAICS industry classification, or other details until audited, sometimes corrected, and registered by an SLA Data Analyst. This data represents the closest information to the “real-time” placement of the policy, given the regulatory constraints of the filing process for the broker.
